

		Title: Crash Survivability	
Requirement ID:	FDR-REQ-004	Priority:	High
Company:	Airquire	Aircraft Model:	FlyTest
Source:	EUROCAE ED-112A		
Description:			
The FDR enclosure must be designed and tested to withstand extreme impact, fire, pressure, and immersion conditions as defined by industry standards for crash survivability. Post-crash data retrieval must be possible following exposure to these conditions.
