

	Title:	Installation Physical Security	
Requirement ID:	FDR-REQ-006	Priority:	High
Company:	Airquire	Aircraft Model:	FlyTest
Source:	CS-25.1457(c)(1)		
Description:			
The flight data recorder (FDR) unit shall be installed in the most crash-survivable location practicable, as determined by a validated crashworthiness analysis. The unit shall be physically protected from impact, fire, and immersion damage to the maximum extent possible. Mounting shall withstand specified G-loads per CS-25.561.
